

# GO by Spark - How to Download the Print Program as a PDF With or Without a Background? GO Version: v1.18.0

The Feed Editor allows users to organize and modify the print program. Once the print program is created, users can download it as a PDF.

We now offer the option to download your program with or without the background shell, making it a versatile resource for both digital and print purposes.

2 When you click "Export Program", it will export with the shell by default.

**i** Tip! Most of our clients use this option to generate their QR codes for the Digital Program, allowing guests to download the PDF.
