1 From your GO URL, click on the ticket icon to access **GO Reserve**.

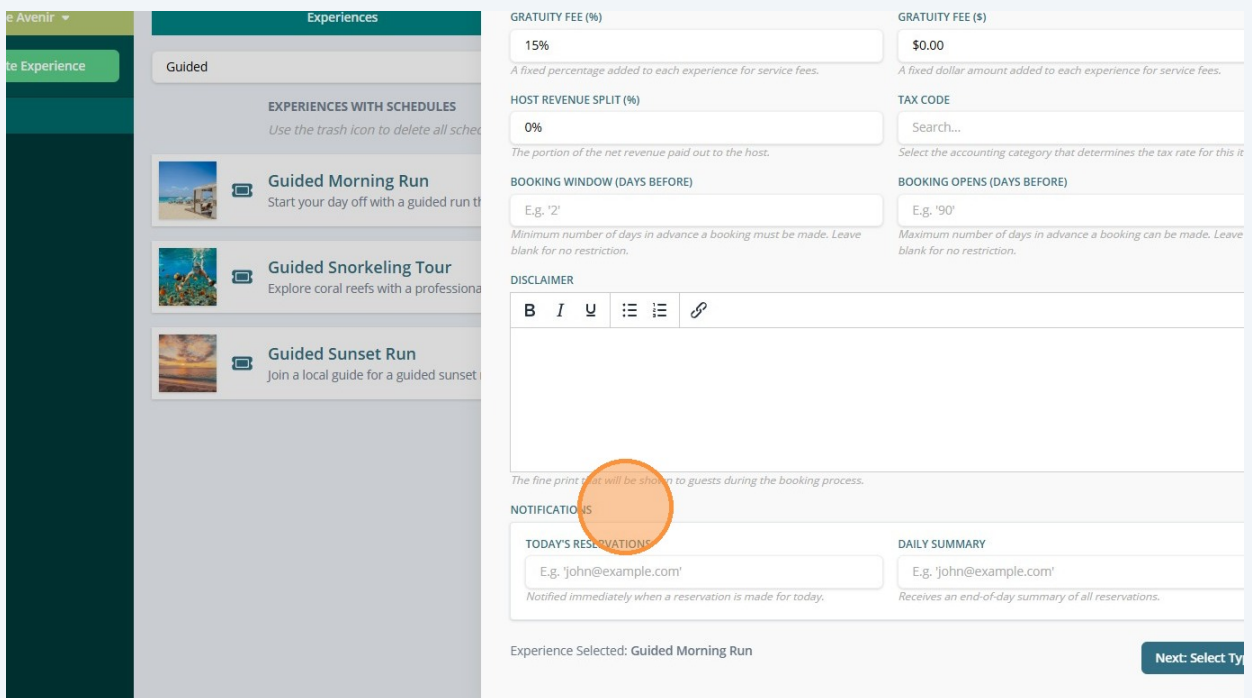

## 2 Search for the experience you want to add notifications to, then click on it.

## 3 Go to the "Details" tab and scroll down. From there, you can add notifications to be sent immediately after a reservation is made, a report to be sent at the end of the day, or both.

You can add as many email addresses as you wish — there is no limit.

**NOTE:** You will need to click on “Next...” at the bottom of the page until you see “Finish: Save Experience” in order to save the changes you’ve made.
